

## COVID Update: October 2, 2020

With COVID-19 infections on the rise in Ontario, the College of Massage Therapists of Ontario (CMTO) continues to monitor the situation closely and will provide any updates on new provincial measures and directives impacting Massage Therapists (MTs/RMTs) as they become available. CMTO is also liaising with the Ministry of Health and peer regulators in order to monitor the COVID-19 pandemic as it continues to evolve.

We appreciate RMTs' continued vigilance in screening, cleaning and disinfecting, using personal protective equipment, and adhering to Ministry of Health and CMTO guidance. At this time, RMTs may also want to monitor the prevalence of COVID-19 in their particular region through the [Ministry of Health's website](#) or [Public Health Ontario's COVID-19 Data Tool](#).

This guidance and [Frequently Asked Questions](#) (FAQs) are available on CMTO's [COVID-19 webpage](#). We are updating the FAQs to reflect questions we receive from the profession and clients.

If you have questions after reviewing the information on our website, please contact CMTO's Practice Specialist at [practicespecialist@cmto.com](mailto:practicespecialist@cmto.com) or by phone at (416) 489-2626/1-800-465-1933 extension 4124.
