

# Candidate Statement

---

I have been a massage therapist since 2016 after graduating Humber College's Massage Therapy Program. Since then, I have obtained a certificate in Adult Teaching and Learning and I am working on completing a degree in Allied Health Science.

I have practised Massage Therapy in a variety of settings since registering in 2016. In addition to my clinical practise, I served for three years with the CMTO on the discipline and quality assurance committees. In this time, I worked to protect the public and ensure the highest quality care from RMTs. I also facilitate student massage clinic to help guide and mentor the future of the profession to be qualified and trusted healthcare professionals.

Through my career, I have been dedicated to advancing the public perception and trust of the profession, clinically, through regulatory work, and when in the “classroom”. I believe in transparency and accountability and I am confident that I can continue to ensure the CMTO exceeds with those same goals. With your support, I hope to further the profession by increasing the trust the public has in RMTs through accountability and regulatory excellence.

Kyle Bonnyman, RMT
