

Chelsea Bovey - Candidate Statement

With over 13 years of experience as a Registered Massage Therapist (RMT) and a previous 10-year career as a Registered Dental Hygienist (RDH), I bring a broad and diverse perspective to healthcare regulation and professional practice.

My background has given me a deep understanding of patient-centered care, inter-professional collaboration, and the importance of upholding high standards within regulated health professions.

I have practiced in both urban and rural settings across Ontario, allowing me to appreciate the varying needs and challenges faced by practitioners and clients in different communities. This has informed my balanced and inclusive approach to decision-making and advocacy.

Currently, I am pursuing a Bachelor of Science to further expand my knowledge base and open new pathways for professional growth and contribution to the health sciences field. I am committed to the integrity of the profession and would be honored to support CMTO's mandate of protecting the public interest while advancing safe, ethical, and competent massage therapy practice in Ontario.
